Pleated Blind

The **Barter Pleated blind** is very suitable for both the modern minimalist look and the traditional look with curtains to dress the window.

For a clean uncluttered look, match the blind colour to the window surround so that when the blind is retracted it is almost invisible but when the blind is extended it forms a unified whole

Choose from free hanging in standard windows or:

- Skylights with the addition of suspending wires and side channels
- Triangular windows
- Arched windows
- Choose from semitransparent fabric to blackout
