Roman Shade

A contemporary look for an old favourite, **Barter Roman Shades** are simple and elegant.

Choose from traditional light filtering sail cloth or a range of colours and light transmissions from translucent to blackout.

Concealed operating cords behind the fabric present a clean uncluttered look.

When raised the fabric hangs in soft folds giving you that "decorator look". **Barter Roman Shades** are designed to look beautiful with the added bonus of functionality.

When closed, **Barter Roman Shades** give excellent privacy, and may be positioned at any point in their drop to allow light control.

When fully open, **Barter Roman Shades** give maximum visibility.
